

NFC Business Card Instructions

Thanks for purchasing your BizCardOne!

How It Works

Now that you've completed your purchase, you can send us relevant contact details and your logo which will be added to your card. Fill out the form – <https://vcard.vc/nfccard>

Our skilled design team will customise your card using this information.

You can also select a digital business card template to be linked to your card with all your contact info and details. With any NFC card ordered you can also add a corresponding digital business card.

Please note: Any individual business card orders will not be processed. You can also specify on the order form

<https://vcard.vc/nfccard> (by product SKU) which digital business card you have selected.

The pricing is for the set up of your digital card, access to your admin panel and sign up credentials.

If you prefer to add your own pre-built link to the NFC card, please specify on the form. <https://vcard.vc/nfccard>

The BizCardOne platform is upgraded at least once every year as a result your NFC business card & corresponding digital business card is only valid for a 12 month period. You can renew/update your card by simply purchasing a new package or card.

****Custom NFC card orders are chargeable. Please specify on form and we will confirm cost.***
